Hi Julie

I gave Sigma another call and requested notification if the backorder changes from the 3rd week in September. I called some folks at the Connecticut Drug Lab and they do have the standard but can't remember the last time they confirmed cathine. The quality manager (Jane Ridley) is out until Monday so I'll give her a call then about possibly getting some cathine standard. She also has a contact person at DEA about getting unavailable standards. I'll also try the regional DEA for a method and standard.

Good morning,
We do not have a standard!

Sorry.

Hi,
Do either of you have a little cathine standard we could have? We have an order placed but it is backordered several months.
